BRIDGE AI SOLUTIONS → REFINED WEALTH MANAGEMENT

PROPOSAL

LinkedIn Follow-Up Automation System

Stop losing 8-10 hours per week to manual follow-up tracking. Let AI handle the busywork while you focus on building relationships and closing clients.

8-10 hrs	100%	3 → 5 → 9 → 15
RECLAIMED PER WEEK (COMBINED)	FOLLOW-UP COVERAGE	AUTOMATED DAY SEQUENCE

THE CHALLENGE YOU'RE FACING

"Clunky" Excel Tracking

Manually logging connection dates, message dates, and response status in spreadsheets that feel like they're "at the bottom of the totem pole."

Missed Follow-Up Timing

No automated reminders means guesswork and missed timing windows. "People followed up on XYZ day should have been followed up with today."

Lost Opportunities

"There's missed opportunity by inactivity happening." When follow-ups don't happen, warm prospects go cold and revenue is lost.

The Real Cost: It's not just the 8-10 hours per week. It's the mental overhead of remembering who to reach out to, the stress of knowing people are being forgotten, and the revenue lost from prospects who never got that critical 2nd or 3rd touch.

HOW WE SOLVE THIS

We're not offering a generic CRM. This is a custom follow-up automation system built specifically for your LinkedIn workflow, designed to eliminate the tracking burden while keeping you in complete control.

1 Smart Follow-Up Sequencing

The system tells you exactly who needs follow-up today:

- ✓ **3 days** after 1st message (no response)
- ✓ **5 days** after 2nd message (no response)
- ✓ **9 days** after 3rd message (no response)
- ✓ **15 days** after 4th message (no response)
- ✓ **Monthly** thereafter (eternal nurture)

2 Fully Automated via Expandi

Set it and forget it — Expandi runs your follow-ups automatically:

- ✓ Messages send on schedule — no manual work
- ✓ Automatic reply detection stops sequences
- ✓ No spreadsheets, no tracking, no data entry
- ✓ You focus on conversations, not administration

3 Two-Track System

Separate handling for different engagement levels:

- ✓ **"No Response"** — Automated 3→5→9→15→monthly
- ✓ **"Active Engagement"** — Custom follow-up for replies
- ✓ Easy to see who's engaged vs. who needs nurturing

4 Real-Time Dashboard

See exactly what's happening across all your outreach:

- ✓ Live view of who's been contacted and when
- ✓ Reply notifications — never miss a response
- ✓ Performance metrics and response rates

YOUR INVESTMENT & EXPECTED OUTCOMES

$499 /month

$1,250 one-time setup

- ✓ **For 2 advisors** (Matt + Kyle)
- ✓ Full automation with Expandi
- ✓ Automatic reply detection
- ✓ Two-track system
- ✓ Smart follow-up sequences
- ✓ Daily performance dashboard
- ✓ Weekly check-in calls
- ✓ Training, documentation & ongoing support

Tools (paid separately): Expandi $99/mo per user

90-Day Pilot — No Long-Term Commitment

What You're Really Buying

10-14 hrs SAVED PER WEEK	**520-728** HOURS RECLAIMED/YEAR
65-91 WORK DAYS SAVED/YEAR	**90%+** MANUAL TASKS ELIMINATED

Instead of:

- ✗ Manual LinkedIn searches
- ✗ Spreadsheet data entry
- ✗ Tracking follow-ups manually
- ✗ Remembering who to re-engage

You focus on:

- ✓ Client relationships
- ✓ Closing deals
- ✓ Strategic growth
- ✓ Business development

> **That's 2-3 full months** of 8-hour workdays returned to your team annually — time you can invest in client relationships and strategic growth.

IMPLEMENTATION ROADMAP

WEEKS 1-2
Discovery & Setup
Kickoff meeting, access coordination, profile definition, automation framework

→

WEEKS 3-5
Build & Test
System development, testing with sample prospects, workflow refinement

→

WEEKS 6-8
Launch & Training
Go-live, team training, initial monitoring, baseline metrics

→

ONGOING
Optimization
Regular check-ins, performance reviews, feature enhancements

THE PATH TO AI AGENT HQ

MONTHS 1-3
